

Guardian Entry Systems Manufacturer's Certification Statement

This Manufacturer's Certification Statement is for qualifying door products purchased and installed on or after **January 1, 2012 through December 31, 2013.**

This Manufacturer's Certification Statement provides the required documentation needed to receive an energy tax credit for Guardian Entry Systems that are built with a qualifying entry door, and sidelights as defined by the *H.R.8 The American Taxpayer Relief Act of January 1, 2013.*

How to Qualify for the 2012 -2013 Tax Credit:

1. Purchase and install qualifying products on or after January 1, 2012 through December 31, 2013. Tax credit is for cost of product only, and does not include installation costs. Tax credit is for taxpayer's principal residence only.
2. Must have Manufacturer's Certification Statement to qualify. It is a signed statement from us certifying that the product or component listed qualifies for the 2012- 2013 tax credits. Taxpayer must keep a copy of this certification statement and purchase receipts for their records, but do not have to submit a copy with their tax return.
3. Tax Credit is based on 10% of product cost up to a maximum amount of \$200.00 for qualifying windows and 10% of the product costs or a maximum amount of \$500.00 for qualifying doors. Total tax credit cannot exceed \$500.00.

If homeowner has taken a non business Energy Property Tax Credit of \$500.00 or more in the 2006 through 2011 tax years, they are **not eligible for this tax credit in 2012-2013**

Please Note:

All qualifying models and glass styles are listed as of January 1, 2012. Due to ongoing product changes and revisions of industry standards and requirements, this information will be updated periodically to reflect those revisions.

Guardian Entry Systems certifies that all Guardian Entry Door and Sidelights models listed in this statement are eligible building envelope components for the 2012-2013 tax credits listed under *The American Taxpayer Relief Act of January 1, 2013*
